Animal and Plant Health Agency

ET152 UK status for non-notifiable disease relevant to export certification

August 2026

Change Notice

The following changes have been made to Version 9:

- Minor changes have been made to some non-notifiable disease descriptions
- Updates to the following non-notifiable diseases have been made: Leishmania in dogs and Mpox (Monkeypox)

1.	Aino virus infection	Never recorded
2.	Akabane disease	Never recorded
3.	Avian trichomoniasis (*Trichomonas gallinae*)	Common in wild birds Never recorded in commercial flocks
4.	*Babesia ovis* infection (Ovine babesiosis)	Never recorded
5.	*Babesia rossi* infection	Never recorded
6.	Bayliascariasis in ratites (Baylisascaris procyonis)	Never recorded
7.	Borna disease in horses and ruminants (Borna disease virus BoDV-1)	Last recorded 2008 in a horse imported from Germany
8.	Bovine anaplasmosis (*Anaplasma marginale* and *A. centrale*)	Never recorded
9.	Bovine ephemeral fever	Never recorded

10.	Bovine venereal trichomoniasis (*Trichomonas foetus*)	No reports this period. Last recorded date 1991
11.	*Brucella canis* infection (Canine brucellosis)	2017/2018 - recorded in a dog imported from Serbia and one from Romania 2021 recorded in multiple dogs at different locations within UK. Dogs are resident in UK but imported from overseas (primarily Eastern Europe) 2023/2024 – further cases have been recorded (heightened PVS awareness) 2026: Emerging import concern in UK veterinary surveillance
12.	*Brucella suis* infection (Swine brucellosis)	Never recorded
13.	Camel Pox Virus (*Orthopoxvirus cameli)*	Never recorded
14.	Canine Babesiosis (*Babesia gibsoni)* in indigenous dogs	Confirmed cases in Essex 2016, 2017
15.	Canine influenza (H3N2)	Never recorded
16	Cervine paraelaphostrongylosis (meningeal worm or brainworm)	Never recorded
17.	Chuzan disease	Never recorded
18.	Crimean Congo Haemorrhagic Fever (CCHF)	Human case confirmed in a traveller from Afghanistan and subsequently died from the disease, Oct 2012 (Euro Surveill. 2012 7(48):20327) Second human case reported in a traveller from Bulgaria July 2014, developed moderate symptoms but survived (Euro Surveill. 2014 19(30):20864)
19.	Cysticercosis (*Cysticercus cellulosae*)	Not recorded since 1992.

20.	Duck Viral Enteritis (DVE) Anatid alphaherpesvirus-1	Never recorded (commercial poultry flocks) Sporadic cases in wild birds (game)
21.	East Coast fever - Bovine Theileriosis (*Theileriaparva*)	Never recorded
22.	Equine encephalosis Equine Encephalosis Virus (EEV)	Never recorded
23.	Equine paratyphoid (*Salmonella abortus equi*)	Last reported in UK in 1989
24.	Equine piroplasmosis	A small percentage of positive imported or travelled horses are resident in UK however Autochthonous equine (locally acquired) piroplasmosis has never been recorded in GB
25	European Brown Hare Syndrome	Prevalent in the UK wild hare population. Never recorded within wild European rabbit population or any farmed rabbits
26.	Getah virus infection	Never recorded
27.	Goose parvovirus	2008 - Irvine et al 2008 Vet Rec 164, 461
28.	Haemorrhagic septicaemia	Never recorded
29.	Hantavirus infection	2014 - Gloucester and Doncaster human cases of SEOV HFRS 2014 - 32.9% SEOV seroprevalence in UK pet rat owners (PHE report) 2015 - Wales three linked cases of SEOV HFRS (Outbreak) - pet and feeder rats (unpublished) 2019 cases in wild rats 2019 - Seoul virus associated with Pet rats, Scotland (EID 2021;27(10):2677-2680)

		2026: Human cases from rodent reservoir on cruise ship linked abroad, not domestic outbreak
30.	Heartwater (*Anaplasma ruminantium*)	Never recorded
31.	Heartworm in dogs (Dirofilaria immitis)	No reported cases in UK resident dogs Occasional cases in imported dogs
32.	Hendra virus infection	Never recorded
33.	Horse pox Virus	Not recorded since 1970 (anecdotal)
34.	Ibaraki disease	Never recorded
35.	Insects of the genera *Chrysomya* (Old world screw worm)	Never recorded
36.	Insects of the genera *Cochliomyia* (New world screw worm)	Never recorded
37.	Japanese *B. encephalitis* in horses	Never recorded
38.	Jembrana	Never recorded
39.	Kungunya virus (primates)	Never recorded
40.	Leishmania in dogs	Occasional cases in imported dogs. The sandfly vector is not present in the UK. No confirmed autochthonous (locally acquired) cases A study identifies that imported animals are the commonest source of dogs having a leishmaniosis diagnosis. Most cases are diagnosed in southern England
41.	Marburg virus disease (MVD)	Never recorded
42.	Mayaro Fever (primates)	Never recorded

43.	Melioidosis (*Burkholderia pseudomallei)*	1990 - Group of imported monkeys Sporadic cases in man after arrival in GB from abroad
44.	Mpox (Monkeypox)	Increased human cases recorded since 2018 - all related to human transmission The UK continued to report cases throughout early 2026, Linked to travel or imported exposure: 28 Feb 2026: 34 clade Ib cases, 31 Mar 2026: 45 clade Ib cases 2026: Evidence presented that a transmission event from fire-footed rope squirrels (*Funisciurus pyrropus*) is the probable origin of an MPXV outbreak in a wild population of sooty mangabeys (*Cercocebus atys*) in Taï National Park, the study provides crucial insights into squirrel species as potential natural reservoirs.
45.	Nairobi sheep disease	Never recorded
46.	Nipah virus infection (Hendra) Henipaviruses	Never recorded
47.	Potomac Horse Fever (*Neorickettsia risticii*)	Never recorded
48.	Salmonella enterica subsp. enterica ser. Abortusovis in sheep	Last reported isolation 1984
49.	Seneca Valley Virus	Five cases in pigs in England between June and September 2022
50	Stephanurosis (Pig kidney worm)	Never recorded
51.	Surra (*Trypanosoma evansi*) Reported for Northern Ireland only	Never recorded
52.	Trichinosis	Recorded in foxes 2009 in N. Ireland (Never recorded in pigs). Not recorded in

		GB herds since surveillance testing commenced in 1979
53	Tsetse transmitted Trypanosomiosis Trypanosomiosis: “Infection with *Trypanosoma brucei, T. congolense, T. simiae* and *T. vivax*” (Nagana in animals, sleeping sickness in humans)	Never recorded
54.	Tularaemia (*Francisella tularensis*)	Never recorded in animals or birds
55.	Vesicular exanthema	Never recorded
56.	Wesselsbron disease	Never recorded
57.	Yellow Fever (primates)	Never recorded
